

INDIVIDUAL COUNSELING SERVICES

About

Counseling is a professional relationship that empowers diverse individuals, families, and groups to accomplish mental health, wellness, education and career goals in confidential and non-judgemental manners. Congruence, empathetic directions and human wellbeing are hallmark of our counseling services.

Scope of Counseling Services

Counseling services empower the clients through effective and instrumental strategies and techniques to:

1. Overcome the obstacles and personal challenges faced by potential individuals
2. Helping to realise the consequences of their decisions
3. Enable to live more productive and satisfying life
